

TWO NIGHTS MORE OF NIGHT STICK.
Then Policemen Will Have Empty Hands,
but Armed All the Same.

When the policemen in the thirty-five station houses in this city march out on the floor at 6 o'clock on Tuesday morning, to begin the "dog watch," their clubs will be out of sight, but the belts, which will remain. Under the right flap of his coat each policeman will have a short club, which will be more effective when in use than the old one.

Another change in the equipment of the policeman will be the signal whistles which they will carry. Superintendent Barnes has decided on the pattern of the whistle. It differs from all ordinary whistles in use, and it will be extremely difficult for anybody who is not a member of the force to get one like it.

The POLICEMAN'S WHISTLE.
The new whistle is peculiar, and policemen will not be likely to stop the street cars or run when they hear it. It is a distinctive whistle, on any whistle other than a policeman's.

The new whistle is about three inches long and two and a half inches in width. It is nickel-plated and quite heavy. There is a flange on the mouthpiece so arranged that when the policeman has to speak he can blow his whistle twice without having to take his hand from his gun to open the mouthpiece to pull it out of his mouth. There is a chain and catch attached to the whistle. The catch will be fastened to the belt of the policeman at the time of issue. The whistle will be shaved between two buttons and concealed except when in use.

The policeman is not supposed to use the whistle unless he wants to call other policemen to his assistance or in case of fire, riot, or other emergency. He need not however, wait for a policeman to come to his aid if the policeman is not around. If a policeman on his post wants the officer on the adjoining post to come to him, he need only blow his whistle, which will be answered in the middle of the post and at each end.

The policeman must give an answering call, and if the visiting officer does not answer, he must reply with a single blast.

If you hear a roundman blow his whistle twice, so that you do not hear the first, you may be sure that your mind the policeman is not around.

In case of a fire, riot, or other emergency, when you want to see the assistance of more than one officer, he will give three blasts of his whistle in quick succession, and all the policemen in the vicinity will respond to the call.

SIX LITTLE TAILORS

Kersey Overcoatings, IN BLACK, BLUE, AND BOTTLE GREEN.

FOR FALL OR WINTER WEAR,
WITH SILK, SATIN, OR CLOTH
LINING, TO ORDER.

THESE GOODS ARE VERY DRESSY,
AND ARE THE TALK OF THE TOWN
FOR THE MONEY.

TRousERS IN LONDON \$5
STRIPES, TO ORDER.

FULL DRESS SUITS IN WEST
OF ENGLAND BROADCLOTH
AND DRESS WORSTEDS \$30
EITHER SILK OR SATIN
LINED, TO ORDER.

Samples and Self-measurement Guide sent
on application free of charge.

Cloth sold by the yard, silk shrank and
ready for use.

JACOBS BROTHERS,
229 BROADWAY, OPP. P. O.;
152 and 154 Bowery, corner Broome St.

Had On Four Pairs of Trouser.

Frank Howard was arraigned at Jefferson Market Court yesterday charged with attempting to steal three pairs of trousers from the store of Rogers, Peet & Co. at Thirty-second Street and Broadway. Howard went into the store on Friday afternoon and tried on several suits of clothes. He neglected to take off one pair of trousers, and put on over another. He buttoned his coat over them. Then he came out of the compartment where he had been trying on clothes, took off his coat and started out of the store. The clerks noticed that he bulged unusually in his pants, and had him arrested. Howard was held in \$100 bail for trial.

CONNECTICUT'S LONG DROUGHT

Leads to a Starving Adventure to Farmer Pendleton's Old Well.

Middletown, Nov. 12.—The long drought in the Connecticut valley has greatly delayed the advent of the fall harvest. Wild flowers, fruit trees and strawberry blossoms, snakes and other summer things are still current. The drought has not dried all the small streams and wells, and it was on account of the drought, too, that Farmer Alexander Penfield's hired man of rural Portland town across the Connecticut River from this city, had a unique and startling experience a few days ago. Like all his neighbors, Alexander had been getting his drinking water in hosepipes for his household and his barn stock from the distant river, and he was tired of the job. So he had to his hired man, a young man, to help him to the assistance of the river, and to go to the assistance of the policeman making the call.

The policeman must give an answering call, and if the visiting officer does not answer, he must reply with a single blast.

If you hear a roundman blow his whistle twice, so that you do not hear the first, you may be sure that your mind the policeman is not around.

In case of a fire, riot, or other emergency, when you want to see the assistance of more than one officer, he will give three blasts of his whistle in quick succession, and all the policemen in the vicinity will respond to the call.
